

WLAN MOBILE PACK V2

Mobile power supply for
WiFi reference measurements

With this kit, you are independent of external power sources and flexible in all environments. Always have 100 watt-hours of power on hand with the associated Accelerator Powerpack. The lightweight tripod can be extended to 3.70 m and easily moved to any location using rollers. The universal mounting plate securely and reliably holds any conventional access point or WiFi antenna. The transport backpack makes this set your ideal companion so that you can transport everything you need for your work safely and easily.

PROPERTIES

- ★ Mobile and independent power supply with integrated PoE output (802.3 af, at, bt)
- ★ Battery pack guarantees more than 6 hours of stable PoE power output to a dual band access point
- ★ Universal access point mounting plate with hook-and-loop fasteners. Ensures quick installation of any commercially available access point
- ★ Adjustable lightweight tripod, including rollers for easy movement and adaptation of the simulation setup. The holder of the access point mounting plate can be extended up to a height of 3.70 m (extender for height optimization optional, for heights between 6 - 7 m)
- ★ 90-degree adapter for setting up the universal access point mounting plate vertically (for simulating AP wall mounting)
- ★ Backpack for easy transport

KEY BENEFITS:

- Unique mobile PoE power supply
- Integrated power supply for over 6 hours stable PoE power output to a dual band access point
- USB C/A power output for charging survey devices like tablets with fast-charge support
- 12V power output for powering external devices like camera set-ups
- Adjustable tripod with air damping and M10 x 1,5 or M6 x 1 photo thread for setting up the access point mounting plate
- Super lightweight backpack that can also be used as a carrying bag. It offers plenty of space for all tools in survey use and additional for measuring instruments and notebooks. The padded compartments protect the contents.

SCOPE OF DELIVERY:

- 1x Acceltex Accelerator V2 battery pack (100Wh) with protective case and retaining system
- 1x 5 m patch cable
- 1x tripod (lightweight construction), extendable up to 3.70 m
- 1x roller system for the tripod
- 1x 90-degree adapter for AP mounting plate
- 1x univ. AP mounting plate with hook-and-loop fasteners
- 1x backpack

Ordering information	Article-No.
WLAN Mobile Pack V2 Scope of delivery: 1x Acceltex Accelerator V2 Battery Pack, 1x 5 m Patch cable, 1x tripod, 1x tripod roller system, 1x univ. AP mounting plate, 1 Transport backpack	NP-MOBILE-PACK-V2
WLAN Mobile Pack V2 PRO Scope of delivery: 3x Acceltex Accelerator V2 battery pack, 3x 5 m Patch cable, 3x tripods, 3x tripod roller systems, 3x univ. AP mounting plate, 1 transport backpack, 1 tripod Bag for up to 3 tripods	NP-MOBILE-PACK-V2-PRO
WLAN Mobile Pack Kit M Scope of delivery: 1x tripod, 1x tripod Adapter, 1x tripod roller system, 1x univ. AP mounting plate	NP-MOBILE-PACK-KIT-M
